Washington, DC 20231

Response under 37 C.F.R. § 1.116

Sir:

In response to the Advisory action mailed April 4, 2003, please consider the following arguments.

Remarks

We appreciate the prompt issuance of the Advisory action by the Examiner as an answer to the response filed March 31, 2003. Applicants would like to take this opportunity to clarify some of the arguments made for patentability of the pending claims in light of the comments made in the Advisory action.

We do not disagree with the statement in the Advisory action that it would be routine for one of ordinary skill in the art to dry the composition sprayed onto a radiator as described in

CERTIFICATE OF FACSIMILE TRANSMISSION

I hereby certify that this correspondence (along with any paper referenced as being attached or enclosed) is being sent via facsimile on the date shown below with the United States Postal Service to Commissioner for Patents, United States Patent and Trademark Office, Washington, DC 20231.

Date: April 21, 2003
